# Task 1

## Installation of Cisco Packet tracer

Step 1: Open any web browser and type for cisco packet tracer net cad

Step2: Click on the first link and make sure you login with your student mail id.

Step3: Now inside the web page click on Getting Started with cisco packet tracer

Step4: After clicking on that then click on self-paced learning

Step5: Now scroll down upto the download chapter

Step6: In the download chapter you can see the download icon and under that you can see a link.

Step7: Once you click the link the Cisco packet tracer will be downloaded.

Step8: After finishing the download just open the file and click the next option until installation is complete.

Step9: Once the installation is complete you can see a back option but don't click on it, instead click on all skills option in the green box.

Step10: You might be asked again to login or not, once its done the installation is complete and its open to use.
